LI

FE

Summer rhymes with sun, sea and nature. It is the season of joy, of unforgettable moments, to be lived with carefreeness. What kind of summer would it be without sea, sunsets in the mountains, walks among the trees, swimming in crystal clear water, laughter with the people we love.

Rilastil dreams of a future in which summer still rhymes with sea and is committed to protecting our seas and oceans!

THE SKIN

Rilastil is proud to belong to Istituto Ganassini, one of the most prestigious and historic Research Institutes of Italy.

In our laboratories, since 1972 science meets cosmetics to give life to safe and sensorial formulations that respond to the most diverse dermatological skin needs.

We are the first Italian brand specialized in photoprotection and we offer solutions dedicated to those who are looking for a product that combines effective protection, cosmetic pleasantness and active ingredients.

Safe even for the most sensitive skin.

SAFE

ETY

THE ENVIRONMENT

The skin's health is strictly connected to that of our planet; what is harmful to us also threatens the delicate balance of the ecosystem in which we live.

For this reason our laboratories have formulated the new arrivals Rilastil Sun System with safe ingredients for man and for nature.

Our well-being also depends on the amount of beauty in which we can enjoy in our life.

To contribute to maintaining the beauty of the oceans, our sunscreens do not contain filters considered responsible of bleaching of corals and that are respectful of sea life.

IN PREVENTING

For more than 2 years we have been promoting a message of responsibility towards our skin so that how we care for it today contributes to its well-being tomorrow.

The sun is a precious source of vitality but it can become harmful if we misfollow some fundamental rules. Exposing ourselves without precautions can cause immediate risks (sunburn, erythema...) and more or less permanent damages that will emerge over time (spots, wrinkles..)

For this reason, Rilastil Sun System supports ANT Foundation in the campaign for the prevention of Melanoma tumor, spreading essential knowledge to protect our health and that of the people we love.

Protection is prevention.

EVERY YEAR

12/20
cases

7.000

species at risk

WE PROTECT THE SEA TO PROTECT OURSELVES

SIBILITY

TOWARDS THE ENVIRONMENT

Each one of us can make a difference.

At Rilastil we are committed to promoting a conscious lifestyle which is attentive and respectful of the environment.

Our campaign "SUNBATHE RESPONSIBLY" sends a message of awareness, because even small gestures can contribute to maintaining the beauty of the nature that surrounds us.

Being in out the sun is lovely, but even more so if the environment is clean!

MAREVIVO

RILASTIL SUN SYSTEM

Responsible photoprotection

Most of our formulas are biodegradable in seawater and therefore respect the marine environment (test according to OECD 306 method) or are tested for biodegradability according to ISO 14593 method

Photostable

Tested photostability with advanced sun filters. Broad spectrum UVA/UVB protection.

Active

Erythema, burns, spots, photoaging, actinic damage.

Protective

Highly effective against UVA-UVB rays and protective against photoinduced oxidative stress

Comfortable

Sensorial, light and impalpable textures, rapidly absorbed and easy to apply. Ingredients with proven efficacy and tolerability.

Sustainable

Biodegradable formulas and eco-friendly packaging.

Many of our packagings are made of PE with 90/96% plant-derived material (GREEN PE) or recycled plastic (R-PET)
The outer boxes of all our products are made from FSC-certified paper, coming from well-managed forests and/or recycled sources

PREPARE YOUR SKIN BEFORE EXPOSURE

FOOD SUPPLEMENT

With Vitamins (B3, E, D), Tyrosine, Selenium and Lutein with Borage Oil and Grape Seed Extract

Skin type

All skin types, including the most sensitive

How to use

1 capsule per day with the main meal (with water). Take at least one month before sun exposure. It is recommended to use for the whole summer.

*Evaluation of the efficacy in the prevention of sunburn, performed on 20 volunteers for 56 days

SPECIFIC DERMATOLOGICAL PHOTOPROTECTION

AK-REPAIR 100 SPF UVA 53 UVB 131

Specific fluid emulsion for the protection skin exposed to risks due to environmental factors, spots and erythema

Skin type

Very sensitive and delicate skin, prone to erythema and in case of presence of actinic skin damage

Characteristics

- DNA Repair Complex
- Epigallocatechin Gallate
- Vitamin E
- Hyaluronic Acid
- Sodium Alginate

How to use:

Shake before use and apply with a gentle massage (at least 2mg/cm²) half an hour before the sun exposure and every 2 hours in case of intense sweating or washing

100 FLUIDO SPF UVA 53 UVB 131

Specific protective emulsion for subjects with light skin type

Skin type

Sensitive and reactive skin - Presence of skin alterations

Characteristics

- Pro DNA Complex
- Vitamin E

SPECIFIC PHOTOPROTECTION

Medium Light

D-CLAR PHOTOPROTECTIVE UNIFORMING CREAM SPF 50+

Soft emulsion with a velvety texture, which helps reduce visible spots and even out skin tone. Available in 2 shades

Skin type

Skin with hyperpigmentation

Characteristics

- Clari-tech complex
- Vitamin E

*In vitro test

Tested to reduce the risk of eye stinging

ACNESTIL PHOTOPROTECTIVE CREAM SPF 50+

Light emulsion with sebum-regulating, mattifying and soothing properties

Skin type

Acne-prone skin

Characteristics

- Azelogyline
- Niacinamide
- Dipotassium Glycyrrhizinate
- Vitamin E
- Protects from blue light

*In vitro test

Tested to reduce the risk of eye stinging

AGE REPAIR SPF 50+

Creamy emulsion which visibly reduces the signs of photoaging

Skin type

All skin types

Characteristics

- Age-repair Complex
- Hyaluronic Acid

Tested to reduce the risk of eye stinging

ULTRALIGHT GELCREAM SPF 50+

Gelcream with an ultra-light, fast absorbing texture

Skin type

Sensitive, oily and combination skin

Characteristics

- Vitamin E
- Alpha-Bisabolol
- Gamma Oryzanol

How to use: apply with a gentle massage (at least 2mg/cm²) half an hour before the sun exposure and every 2 hours in case of intense sweating or washing

*In vitro tes

FACE PHOTOPROTECTION

COMFORT FLUID SPF 50+, 30

Fluid emulsion with an ultralight, refreshing and non-greasy texture

Skin type
All skin types

- Characteristics**
- Vitamin E
 - Alpha-Bisabolol
 - Gamma Oryzanol

COMFORT MATT FORMULA SPF 50+

Light emulsion with sebum-regulating action, which helps reduce imperfections

Skin type
Sensitive, oily and combination skin

- Characteristics**
- Azelogyline
 - Matte powder
 - Hyaluronic Acid

WATER TOUCH SPF 50+

Formula without emulsifiers. It provides a silky skin feel and a soft focus effect. Does not sting eyes

Skin type
All skin types, even the most sensitive

- Characteristics**
- Matte powder
 - Vitamin E
 - Hyaluronic Acid
 - Oil-free

Tested to reduce the risk of eye stinging

Tested to reduce the risk of eye stinging

How to use: apply with a gentle massage (at least 2mg/cm²) half an hour before sun exposure and every 2 hours in case of intense sweating or washing. For liquid products:shake before use.

FACE COLOURED PHOTOPROTECTION

COLOR COMFORT FLUID SPF 50+

Tinted, fast absorbing fluid emulsion.
Universal shade

Skin type
All skin types

Characteristics

- Vitamin E
- Alpha-Bisabolol
- Gamma Oryzanol
- Coloured pigments

How to use

Shake before use. Apply evenly (least 2mg/cm²) half an hour before the sun exposure and every 2 hours in case of intense sweating or washing

COLOR CORRECTOR SPF 50+

Compact foundation with physical filters, available in 3 shades. Fragrance free

Skin type
Skin with imperfections (as protective makeup)

Characteristics

- Vitamin E
 - Alpha-Bisabolol
 - Coloured pigments
- Beige
■ Bronzé
■ Doré

How to use

Apply with the given sponge, starting from the center of the face and blending outwards

LOCALIZED PHOTOPROTECTION

TRANSPARENT STICK SPF 50+, 30

Sunscreen stick indicated for localized areas. Water resistant

Skin type
Sensitive skin

Characteristics

- Formula enriched with pro DNA Complex and Schisandra Chinensis Extract

How to use

Apply directly on the area to be treated

STICK SPF 50+

White sunscreen stick indicated for localized areas

Skin type
Sensitive skin

Characteristics

- with Vitamin E and vegetable oils

How to use

Apply directly on the area to be treated

BODY PHOTOPROTECTION

NOURISHING LOTION SPF 50+, 30, 15

Soft and rich emulsion

Skin type
Dry, sensitive skin

- Characteristics**
- Vitamin E
 - Alpha-Bisabolol
 - Gamma Oryzanol

How to use
Apply a bit product on the skin and spread evenly

TRANSPARENT SPRAY SPF 50+, 30

Ultra-light transparent mist spray which can also be used on wet skin

Skin type
All skin types, even the most sensitive

- Characteristics**
- Invisible finish
 - Vitamin E
 - Alfa-Bisabol

How to use
Shake before use when required and apply with a gentle massage (at least 2mg/cm²) half an hour before the sun exposure

DRY TOUCH SPF 50+, 30

Ultra-light body spray. Dry touch.

Skin type
All skin types, even the most sensitive

- Characteristics**
- Ultra-fine mist spray
 - Dry touch

SPRAY VAPO SPF 50+, 30 e 15

Soft and light emulsion, which spreads and absorbs easily

Skin type
All skin types, even the most sensitive

- Characteristics**
- Vitamin E
 - Alpha-Bisabolol
 - Gamma Oryzanol

TATTOO SPF 50+

Rich, nourishing emulsion which protects tattoo colors

Skin type
Rich, nourishing emulsion

- Characteristics**
- Cocoa Butter
 - Panthenol

How to use
Apply 2 fingertips (at least 2mg/cm²) of product on tattooed skin

BABY PHOTOPROTECTION

Apply 30 minutes before exposure.
Repeat application every 2 hours.

FLUID BABY LOTION SPF 50+

Easy-to-spread fluid emulsion

Skin type
Baby's sensitive skin

- Characteristics**
- Gamma Oryzanol
 - Aloe Barbadosis
 - Fragrance free
